Decisiveness
Handshake quality

What we do

1

SALES & MARKET DEVELOPMENT

We open up new markets for your services, components / systems expand existing markets and also optimise your sales processes.

2

VALUE CHAIN DEVELOPMENT

We work with you to analyse and reduce life cycle costs (LCC) without compromising the safety and performance of your systems and support you with RAMS and product development.

3

INTERIM SUPPORT

We take the pressure off you in bridging staff shortages, support you in managing and implementing change processes and are available as a sparring partner for your management team.

Why us

There is simply no substitute for experience in the railway industry!

- teamhoch3 and its network partners have been active in the sales and technical field of the railway industry since the 1990s

- teamhoch3 not only takes care of sales and market-related aspects, but also rounds off its portfolio with a view to the entire value chain, especially in the area of RAMS & LCC

- Flexibility
Handshake quality
Adherence to deadlines
